691

VOLUME 23 SUBJECT INDEX

Abstinence

cerebellar hypoperfusion and cerebral cortex blood flow aging effects in, SPECT analysis, 1219

chromosomal aberrations in lymphocytes during, 344

naltrexone-induced stimulation of hypothalamic-pituitary-adrenal axis and, 502

predictor profile changes, veterans, 140

ritanserin role in relapse prevention, 230

short- vs. medium-term, cigarette smoking effects on ACTH/cortisol secretion after, alcoholics, 1515

Acetaldehyde

binding to proteins, alcoholic liver disease and, 657

collagen promotor activity by protein kinase C and, rats, 279

endotoxin LPS-induced release of, alcohol effects on, 673 ethanol adducts characterization by cytochrome c and, 26

salivary production, yeast role in, ethanol-associated oral cavity cancer,

Acetaldehyde secretion, cigarette smoking effects, after short- vs. medium-term abstinence, alcoholics, 1515

Acetate, Michaelis-Menten elimination kinetics of, rabbits, 1452

Acetylcholine receptors, nicotinic, α-bungarotoxin-insensitive, ethanolnicotine interactions at, rat, 439

Acoustic startle parameters, ethanol withdrawal severity and, genetic association, mice, 1730

Acquired immunodeficiency syndrome

alcohol consumption effects on severity, mice, 856

ethanol effects on lung clearance of Pseudomonas aeruginosa and, 735 ACTH: see Acetaldehyde

Adenylyl cyclase

as biomarker for predisposition to alcoholism, 600

Ca²⁺-inhibited, ethanol consumption effects on, mouse striatum, 1999 JASBRA meeting, 7S

ethanol-induced activation of, protein kinase C role, 77

type VII, ethanol actions in cAMP-mediated signaling and, 1457

alcohol effects on skeletal development, 1534

alcohol-induced osteopenia, reversibility of, 324

alcoholism, age at first drink effects on risks of, 101

alcohol use during pregnancy, neonatal outcomes, 1238

drunkenness, binge drinking, and drunk driving tendencies, with/without family history of alcohol abuse, 1191

ethanol-induced testosterone suppression and, opiate blockade effects,

hypnotic effects of alcohol, ontogeny of tolerance, 1180 substance abuse interventions, 236

Adrenocortical response, family alcoholism history and, 1185

Adrenocorticotropic hormone, release, prenatal exposure to alcohol effects, rats, 52

Adrenocorticotropin, hypothalamic-pituitary-adrenal axis response to cold stress, prenatal exposure to ethanol effects, rats, 301

Aerodigestive tract cancer, upper

aldehyde dehydrogenase 2 genetic polymorphism in, 1999 JASBRA meeting, 17S

ethanol effects on, 1102

Aging, cerebral hypoperfusion and cerebellar functioning deficits and, abstinent alcoholics, 1219

AIDS: see Acquired immunodeficiency syndrome

Alcohol: see also Ethanol

adenylyl cyclase activation and, protein kinase C role, 77

blood and brain levels, gender differences in, rats, 414

cardiomyopathy induced by, chicken model of, 1668 cardioprotection and, molecular mechanisms of, symposium, 1108 caspase-3 activity and Fas ligand mRNA expression modulation by, 349 cell adhesion inhibition in BMP-treated NG108-15 cells, 1711

continuous performance test error rates and, 1342

cytokine-mediated neuroprotection to NMDA, 1571

desire for, Obsessive Compulsive Drinking Scale as predictor of, 108 drug absorption effects, 1403

EEG adaptation to, genetic influences on, twin study, 494

EKG time-series data dynamics, 745

estadiol, estrone, progesterone, prolactin, cortisol, and luteinizing hormone and, premenopausal women, 976

fatal injuries and, community prevention evaluation and, 1619

fibrinogen expression effects, 1927

fibrinolytic protein gene expression regulation by, 1119

glial cell proliferation and, rats, 446

hepatitis C and, 1543

hypnotic effects, ontogeny of rapid tolerance to, 1180

intimate partner violence and, in U.S., ethnic/racial comparison study,

mood, equilibrium, and simulated driving effects, 815

motivational properties, clozapine effects on, 1377

motivation effects on memory consolidation and heart rate, social drinkers, 693

neonatal exposure, olfactory bulb development effects, rats, 18 neuronal degeneration, iron supplementation effects, 702

neurotrophin expression alterations induced by, in developing cerebel-

oxidative stress induced by, dietary fat effects, 1210

postnatal exposure to, learning deficits and, rats, 1085

prenatal exposure to

adenocroticotropic hormone, corticosterone, and proinflammatory cytokine release, rats, 52

auditory and visual attention as adult after, 1395

behavioral and psychosocial profiles of children after, 1070

cell loss during brain development and, 726

CNS development and, 644

ethyl linoleate in meconium as marker of, 487

executive functioning in children after, 1808

GABA_A-benzodiazepine receptor in cerebral cortex after, guinea pig, 1816

glucocorticoid fast feedback and, rats, 891

proenkephalin levels and, 1519

Purkinje cells in developing cerebellum, 1691

size at 10 years of age after, 863

thymocyte development and, 465

preterm birth induced by, progesterone and prostaglandin H synthase-2 and, mice, 1793

problem prevention research phases, 183

problems, capture-recapture method for epidemiological studies, commentary, 1843

protein kinase C and, 1552

restraint-induced expression of immediate early genes and, 1272

self-administration, sweetened vs. unsweetened, blood alcohol level effects, 1151

skeletal development effects, adolescents, 1534

testosterone secretion suppression, luteinizing hormone and steroidogenic enzyme effects, rats, 38

use during pregnancy, neonatal outcomes, adolescents, 1238

Alcohol abuse

comparison of diagnostic tools for detection of, 1052

family history, adolescent drunkenness, binge drinking, and drunk driving tendencies and, 1191

glucose metabolism and insulin resistance in, 371

HIV and, infection risks, monkeys, 878

sex differences in genetic liability to, population-based twin study, 1136 sialic acid as marker of, 1039

Microsomal ethanol-oxidizing system, 30-year review, 991 Mineral metabolism, alcohol intake and season effects on, men, 214

Mitochondrial gene, expression in brain, alcoholics, 408

Mitral cells, alcohol/nicotine exposure effects on olfactory bulb development and, rats, 18

Monoamine metabolites, β-endorphin levels, cue-induced alcohol craving and, 1336

Mood, alcohol effects on, 815

Muscarinic acetylcholine receptor, ethanol withdrawal and, 791

chronic treatment, alcohol intake suppression effects, rats, 1761 family history of alcoholism and, 1185

Naltrexone

alcohol self-administration in heavy drinkers and, 195 chronic ethanol-induced testosterone suppression effects, rats, 60 cue-elicited alcohol craving effects, 1386

ethanol responding and, ethanol concentration effects on, monkeys,

1462

ethanol reward and discrimination effects, mice, 456

hypothalamic-pituitary-adrenal stimulation and, abstinent alcoholics,

μ-opioid receptor density and, ethanol relapse after abstinence, rats, 1008

taste aversion in alcohol dependence and, 708

Neonate, alcohol/nicotine exposure, olfactory bulb development effects,

Neoplastic disease, incidence in chronic alcoholics, mechanisms of, 371 Neural activity, ethanol effects on, rats, 285

Neuronal activity, reduction in during alcohol withdrawal, 1077

Neuronal degeneration, alcohol-related, iron supplementation effects, 702

Neuropathy, peripheral, alcohol-induced, MRS evaluation, 158 Neuropeptide Y, alcohol-seeking behavior and, rats, 1023

Neurosteroids, pharmacological effects of ethanol and, symposium, 1933

Neurotoxicity, alcohol, glutamate receptor effects, 1

Neurotoxins, 6-hydroxydopamine effects on voluntary alcohol consumption and, neonatal rats, 1999 JASBRA meeting, 2S

Neurotransmitters, alcohol/nicotine exposure effects on olfactory bulb development and, rats, 18

Neurotrophic factor, brain-derived, NMDA excitotoxicity and, 1834

Nicotine, neonatal exposure, olfactory bulb development effects, rats, 18

Nicotine consumption, heavy alcohol consumption and, 439

Nicotine response, methyllycaconitine inhibition of, ethanol effects, 963 Nitric oxide, role, ethanol-induced anxiety, rats, 1898

Nitric oxide synthase

ethanol effects on neutrophil recruitment and lung host defense and,

reproductive axis response and, ethanol effects on, pubertal male rats, 870

NMDA: see N-Methyl-D-aspartate

N-Methyl-D-aspartate, ethanol effects on excitotoxicity in biogenic amine neurons, 1834

N-Methyl-p-aspartate receptor chronic ethanol consumption effects, rat cortical cultures, 363 c-Src tyrosine kinase effects on ethanol sensitivity of, 357

ethanol withdrawal and, 791

ethanol and ethanol withdrawal effects, rats, 328 ethanol-induced, benzodiazepine effects on, rats, 1736

Nucleus accumbens

ethanol and sucrose reinforcing stimulus actions of, raclopride effects, 421

olfactory stimuli reinstate ethanol-seeking behavior after extinction, 1751

Nutritional status, chronic alcoholics, 1232

Obsessive Compulsive Drinking Scale

alcohol craving predictions and, 108

factor structure and predictive validity, 1484

Oklahoma Postmenopausal Women's Health Study, minority recruitment,

Olfactory bulb, development, alcohol and nicotine exposure effects on, rats, 18

Operant learning, prenatal exposure to ethanol or cocaine effects on, rats,

Opiate antagonist, decreasing ethanol self-administration role, rats, 1468 Opiates, ethanol-induced testosterone suppression and, peripubertal rats,

μ-Opioid receptor, density, ethanol relapse and, rats, 1008

Opioid system, difference in brain, alcohol-preferring vs. -nonpreferring

Oral cavity cancer, ethanol-associated, yeast role in salivary acetaldehyde production and, 1409

Osteoblast expression, alcohol effects, adolescents, 1534

Osteocalcin, season and alcohol intake effects, 214
